

Industrial Valves Limited

Dedicated to the Design,
Manufacture and Provision
of products and services for
the water, waste water and
process sectors.

Brands

INDUSTRIAL VALVES LIMITED

Our company has been supplying manual and actuated valve packages to the UK water sector since 2001.

We are proud to have worked with several major water companies including Anglian Water, Bristol Water, Dwr Cymru Welsh Water, Northumbrian Water Group, Southern Water, Severn Trent, South West Water, Thames Water, United Utilities, and Wessex Water through various frameworks.

INDUSTRIAL PENSTOCKS LIMITED

Specialists in the design, manufacture, and installation of flow control equipment, including penstocks, flap valves, stoplogs, handstops, hydrostatic bellmouths, and floating arms.

We export our products worldwide, supplying the UK, Europe, the Middle East, the USA, Asia, and Australasia.

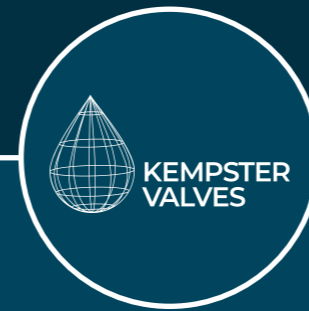

DUVALCO UK LIMITED

Duvalco, a valve manufacturer, was established in the Netherlands in 1956.

They manufacture valves, pipe fittings, and flange adaptors for various industries including water, wastewater, district cooling water, power plant cooling valves, chemical industries, and pulp and paper.

Duvalco are an export valve manufacturer with an in-house manufacturing plant.

KEMPSTER VALVES & ENGINEERING LIMITED

Founded in 2008, we cater to a global audience and have a prestigious client base. We specialise in manufacturing a wide range of Kempster knife gate valves.

Our Kempster KV7 range of high-pressure knife gate valves is designed with a step blade arrangement for dual sealing and comes with a pocketless orifice to prevent clogging.

These valves are suitable for processing media such as slurries, sludges, suspended solids, and clean fluids, and can handle pressure ranging from 16 to 40 Bar.

COPLASTIX LIMITED

Founded in 1968.

The Coplastix® Limited name is synonymous with precision-engineered flow control products, including Stoplogs, Penstocks and Flap Valves which are made with a robust and lightweight sandwich construction using tough, non-toxic plastic and welded steel.

They are also asbestos-free and UV-stabilised.

PAN ASIAN GLOBAL PTE LTD

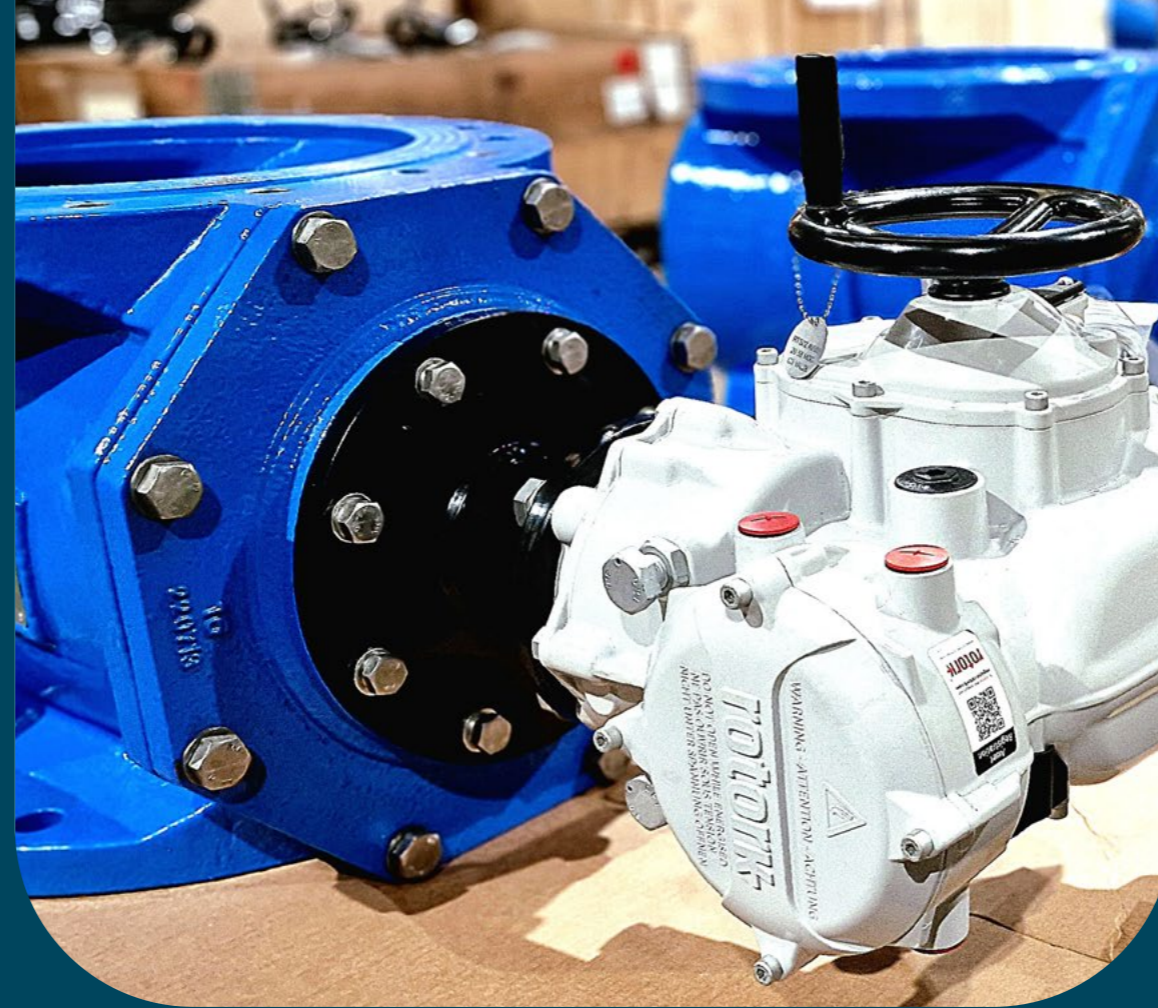

Pan Asian Holdings was established in 1979 and has since become a prominent supplier of top-quality integrated piping solutions for water and wastewater infrastructure projects.

The company specialises in manufacturing and supplying piping, valves, couplings, tanks, and related products and equipment. Additionally, Pan Asian Holdings boasts in-house fabrication facilities to ensure efficient and effective project execution.

What We do

Services Include

- Extensive UK Stock in Midlands.
- “One Stop Shop” for Valve and actuator packages.
- Penstock and flow control solutions.
- Parts and Services / Aftermarket Valve, Penstock and actuator refurbishment and replacement.
- Site Installation/survey/ commissioning/health check services.
- Hydrostatic / Pressure Testing Valve.
- Flood defence products.
- In-house design and engineering capabilities.
- International technical support with worldwide stock coverage.

Markets Served

- UK Municipal Wastewater Market
- UK Framework approved supply Partner.
- Oil and Gas
- Marine/Offshore
- M.O.D Defence Sites
- Dockyard / Ship
- Power Plants
- Environment Agency
- Food Processing
- Pipe and fittings
- Design Consultants

Product Range

Industrial Valves Limited Products

- Actuators** : Hydraulic/ Pneumatic/Electric
- Air Valves** : Single/Double/ Triple (Sewage/Clean)
- Backflow** Prevention Valves
- Ball Float Valves**
- Ball Valves** : One/Two/Three Piece
- Butterfly Valves** : Wafer/ Lugged /Double Flanged
- Diaphragm Valves**
- Extras** : Valve Kits/Interlocks/ Chainwheels/limit switches/ gearboxes etc
- Fire Hydrants** : Type 1 and Type 2
- Flap Valves**
- Gate Valves** : Resilent (WRAS)/ Metal Seated
- Globe Valves**
- Knife Gate Valves** : Wafer/ Lugged/Flanged
- Needle Valves**
- Non Return / Check Valves : Swing/Nozzle/Duo/Ball/Non Slam Recoil.
- Penstocks**
- Pinch Valves**
- Pipeline** : Pipe/Couplings/ Adaptors
- Plastic Valves** : ABS/UPVC
- Plug Valves** : Clean (WRAS)/ Sewage (NBR)
- Pressure Control Valves** : Pressure relief/sustaining/ control
- Solenoid Valves**
- Stoplogs**
- Strainers** : Y Type / Basket
- Valve & Penstock Packages**

Coplastix® Flow Control Products

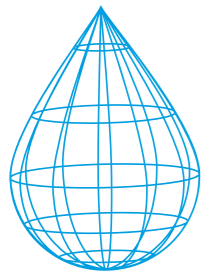

- Products : Penstocks / Flap Valves / Stoplogs**
- Engineered upgraded solution to fabricated or cast iron Penstocks.
- Manufactured as a composite sandwich construction comprising a lightweight rigid, cellular core with a fully welded steel box section matrix between two other skins of rigid, compressed composite plastic which is asbestos free, ultra violet stabilised, rigid and non toxic.
- Features**
- Lighter/easier to install/extremely durable / ten times less friction/ U.V stabilised / DWI/WRAS Compliant.

IPL Flow Control Products

- Penstocks**
- Frame & Door Material : Cast Iron / Coplastix® / Stainless Steel Grade 304/316. 2205 Duplex/2507 Super Duplex.
- Size Range : 100mm - 3000 mm.
- Mounting Position : Wall / Wall Thimble / Channel
- Stoplog / Flood Defence / Handstops**
- Material Options : Aluminium / Stainless Steel / Coplastix®
- Mounting Position : Wall / Channel.
- Flap Valves**
- Material Options : Cast Iron / Coplastix® / Stainless Steel Grade 304/316. 2205 Duplex/2507 Super Duplex.
- Size Range : 50mm - 2000mm Dia / Sq
- Hydrostatic Bellmouth Valves**
- Material Options : M.S / Stainless Steel / Stainless Steel Grade 304/316. 2205 Duplex/2507 Super Duplex.
- Size Range : 800mm - 600mm Diameter
- Floating Arms**
- Material Options : M.S / Stainless Steel / Stainless Steel Grade 304/316. 2205 Duplex/2507 Super Duplex.
- Size Range : 800mm - 600mm Diameter

Kempster

- Kempster KV7 High Pressure Knife Gate Valve**
- Valve Body Options : SG Iron / Stainless Steel Grade 304/316. 2205 Duplex/2507 Super Duplex.
- Size Range : 65 - 300mm Diameter
- Pressure Range : PN16, PN25, PN40
- Medias : Slurries, Sludges, Suspended Solids and Clean Fluids
- Kempster Knife Gate Valves**
- Valves Body Options : Ductile Iron / Stainless Steel
- Size Range : 50 - 2000mm Diameter
- Pressure Range : PN16, PN25, PN40

- Diaphragm Valves
- Extras : Valve Kits/Interlocks/Chainwheels/limit switches/gearboxes etc
- Fire Hydrants : Type 1 and Type 2
- Flap Valves
- Gate Valves : Resilient (WRAS)/Metal Seated
- Globe Valves
- Knife Gate Valves : Wafer/Lugged/Flanged
- Needle Valves
- Non Return / Check Valves : Swing/Nozzle/Duo/Ball/ Non Slam Recoil.
- Penstocks
- Pinch Valves
- Pipeline : Pipe/Couplings/Adaptors
- Plastic Valves : ABS/UPVC
- Plug Valves : Clean (WRAS)/Sewage (NBR)
- Pressure Control Valves : Pressure relief/sustaining/control
- Solenoid Valves
- Stoplogs
- Strainers : Y Type / Basket
- Valve & Penstock Packages

Products

An extensive range of valves from stock. Ancillary items ensure a "One Stop Shop" for customers.

Team

Highly skilled engineers provide free advice on all aspects of valve selection, performance, and operation.

Product solutions with the best whole-life cost.

Project

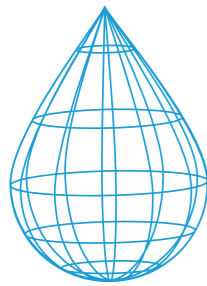

Single point of contact throughout the project life.

An actuated valve package that we build, set, and test before delivery to ease installation on site.

A site services team that retrofits actuators if required.

SPECIALISTS IN THE SUPPLY OF COMPLETE VALVE AND ACTUATION PACKAGE SOLUTIONS

INDUSTRIAL PENSTOCKS

Products

Traditional Cast iron and Stainless Steel Penstocks form part of the offering, complemented with other process flow control products such as Bellmouths, Stoplogs, Flap Valves and Distributor Arms.

Team

Industrial Penstocks has a wealth of technical experience and hands on-site understanding of penstock installation and commission.

Project

Stocked or bespoke, get in touch with your next job and benefit from the team's knowledge - ask us.

DESIGN AND MANUFACTURE OF PENSTOCKS FOR FLOW CONTROL OF WATER AND WASTEWATER.

Industrial Penstocks has a pedigree stretching back over 50 years, with countless penstocks working worldwide, designed and manufactured by the brand.

Products

Flow Control and Flood Prevention

Cast Iron

A full range of cast Iron penstocks for operating pressures of 6m on seat and 3m off seat.

Steel

Fabricated stainless steel range of penstocks of up to 10m on-off seating.

Ancillaries

To compliment the penstocks, IPL offer other process flow control products such as Bellmouths, Stoplogs, Flap Valves and Distributor Arms.

COPLASTIX®

Our Coplastix® products, including Stoplogs, Penstocks and Flap Valves, are made with a strong, lightweight sandwich construction using tough, non-toxic plastic and welded steel.

Products

Coplastix products use modern polymer technology to create lightweight, corrosion resistant, robust and durable longlife flow control products.

Team

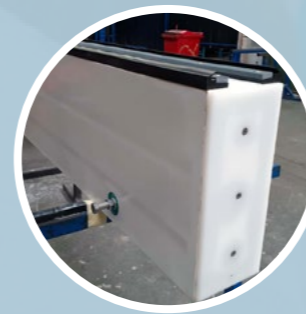

Coplastix® has a wealth of technical experience and hands on-site understanding of penstock installation and commission.

Project

Stocked or bespoke, get in touch with your next job and benefit from the team's knowledge - ask us.

Products

Stoplogs

Coplastix® Stop Logs are designed and manufactured to suit modern industrial and domestic effluent environments.

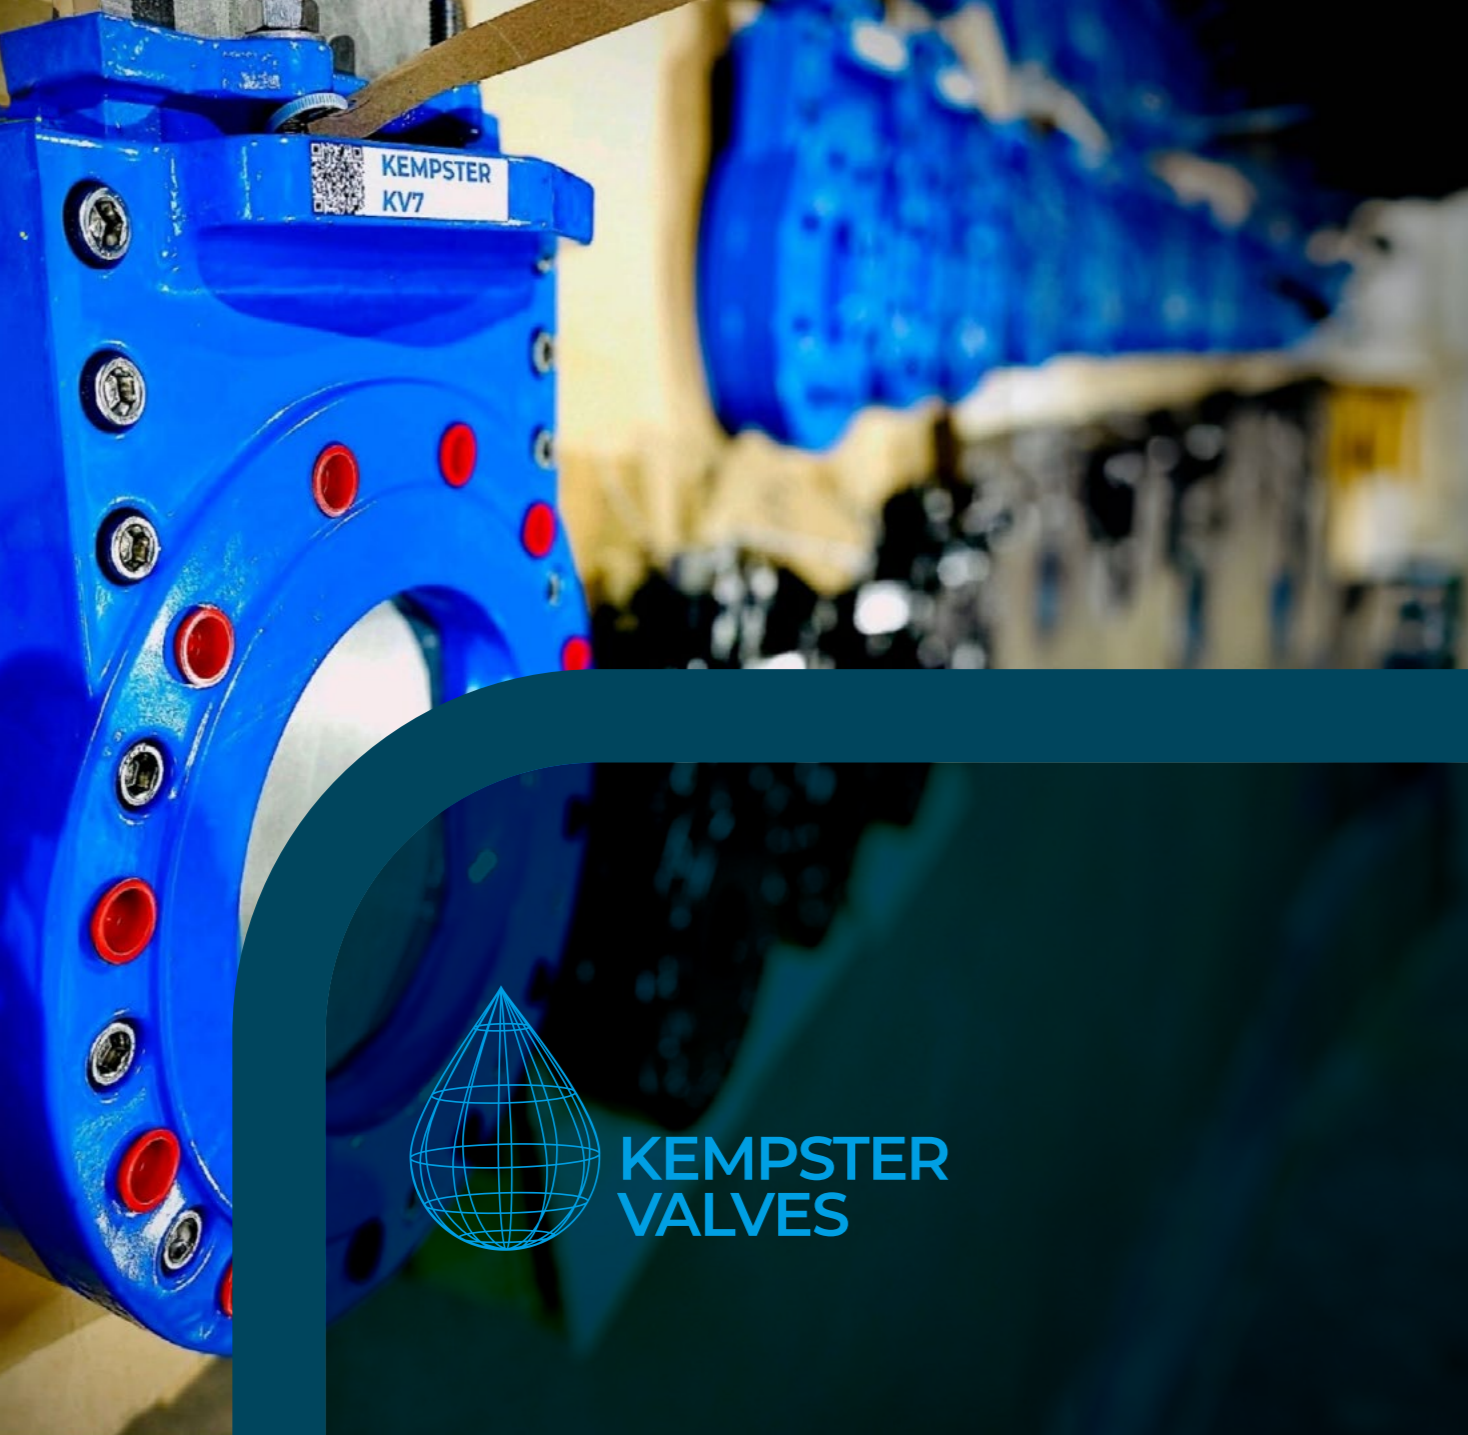

Penstocks

The Coplastix® rectangular faced penstock is designed and manufactured to suit modern industrial and domestic effluent environments.

Flap Valves

Coplastix® Flap Valves are designed for flow control of waste, potable and storm water and seawater.

**KEMPSTER
VALVES**

Knife Gate Valves

Kempster Valves are specially designed and produced to manage and regulate fluids containing suspended solids, heavy slurries and sludge, often corrosive and abrasive substances.

These valves have unrestricted bores, and they are suitable for handling different types of duty liquids. They are perfect for use in challenging water and wastewater environments, where they effectively control the flow of media under challenging conditions.

**RESILIENT SEATED
KNIFE GATE VALVES
PROVIDING TIGHT
SHUT-OFF, PRIMARILY
USED IN THERMAL
HYDROLYSIS PLANTS.**

Size Range
80 - 200MM

**High
Temperatures**

Abrasion

Pressure Range
16, 25 AND 40 BAR

High Pressures

**Corrosion
& Erosion**
